(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)

1. The amendment filed 1-23-03 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: In the amendment to page 24 lines 11-20, "The positioning...described below" lacks clear antecedent basis in the specification as originally filed, and appears to be drawn to new matter.

Applicant is required to cancel the new matter in the reply to this Office Action.

2. Claim 63-74 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In claim 63 "suction device" lacks clear antecedent basis in the specification as originally filed, and appears to be drawn to new matter. Applicant could overcome the above rejection by changing "device" to - pump - in view of page 24 of the instant specification. Claims 64-74 depend from claim 63.

3. Claims 75-87 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 75 "said blender" lacks clear antecedent basis. In claim 75 "mixing chamber" and "adjacent to said mixing chamber" appear to

Art Unit: 1724

be misdescriptive because page 26 of the instant specification appears to be drawn to a blender mixing chamber with nozzles located above and in alignment with the slots, respectively. Claims 76-87 depend from the above claims.

4. Claims 63 and 75 properly written to overcome the above 35 USC 112 rejections would be allowable.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter A. Hruskoci whose telephone number is (703) 308-
